Editorial

Summer is a time for holiday with our friends and family! While sharing wonderful moments with our beloved ones, it is also a moment to share interesting ideas with our profession! In July, a Pharmacy Practice Forum has taken place when one of our colleagues shared with us the interesting story behind the naming of monoclonal antibodies. The forum recap reported by Vincent will definitely help you to refresh your memory!

Apart from the pharmacy practice forum, a remarkable event also took place in this summer. The first Better Tomorrow Forum was held in Mid-June in which more than 30

members and interns participated. The Forum aimed to enhance the engagement of the members as well as to increase transparency of the work done by the Society. In this first forum meeting, Mr. William CHUI, President of the SHPHK, briefed the participants on the issues discussed in the "Steering Committee on Strategic Review on Healthcare Manpower Planning and Professional Development". Mr. Michael Ling, Members Relation Officer of SHPHK, also outlined the future plan in enhancing liaison between members and the Society. Man Keung will bring us more details about this forum!

A squid hooking tour was organized by the Society in Mid-July to enhance members' communication in social activities. Don't worry if you have missed this activity. Daisy will report her pleasant experience on that trip! As in previous issues, you will never miss the inspiring story as well as drug news.

Eva LAI is a resident pharmacist working at the United Christian Hospital

The SHPHK Connection welcomes articles submitted by readers. The articles are accepted for publication subject to editorial abridgment or modification.

Views expressed in named articles are those of the individual authors. Neither the SHPHK Connection nor SHPHK assumes any responsibility for these articles.

Letters to the editor should bear the name of the writer. While anonymous letters will not be accepted, pseudonym may be used for publication, except when the writer comments on previous letters or articles which the authors have used the real name for publication.
